About Unicycive Therapeutics, Inc.

Unicycive is focused on two kidney diseases with large unmet medical needs. We are developing Renazorb, an investigational phosphate binding agent using proprietary nanoparticle technology for the treatment of patients with hyperphosphatemia. We plan to file a New Drug Application (NDA) for Renazorb with the U.S. Food and Drug Administration (FDA) mid-year. We are also developing UNI-494, a new chemical entity with a novel mechanism of action that restores mitochondrial function in acute and chronic diseases. Our initial target for UNI-494 is acute kidney injury (AKI), for which there are currently no FDA-approved medicines. For more information, please visit www.unicycive.com.
